

75. PERIOPERATORY CO-MANAGEMENT IN THE VASCULOPATHIC PATIENT

Level II

Department of Experimental and Clinical Medicine
(DMSC)Course coordinator
Raffaele Pulli**STUDY PLAN**

Subject	Academic Discipline	CREDITS
MODULE 1: CAROTID PATHOLOGY		12
Preoperative surgical evaluation	MED/22	2
Preoperative anesthetic process	MED/41	2
Surgical tactics and technique	MED/22	3
Intraoperative anesthetic monitoring	MED/41	2
Postoperative surgical path	MED/22	2
Post-operative from an anesthetic point of view	MED/41	1
MODULE 2: AORTIC PATHOLOGY		20
Surgical indications of aortic pathology	MED/22	3
Preoperative anesthetic assessment	MED/41	3
Surgical choices	MED/22	4
Intraoperative anesthesiology management	MED/41	4
Post-operative surgical path	MED/22	3
Postoperative anesthetic monitoring	MED/41	3
MODULE 3: PERIPHERAL ARTERIAL DISEASE		10
Surgical classification of the patient suffering from peripheral arterial disease	MED/22	2
Preoperative anesthetic evaluation	MED/41	2
Surgical options	MED/22	2
Intraoperative anesthetic management	MED/41	1
Postoperative medical therapy	MED/22	2
Postoperative anesthetic management	MED/41	1
MODULE 4: EMERGENCY/URGENCY IN PATHOLOGY VASCULAR		12
Vascular pathology in emergency	MED/22	2
Critical anesthetic issues of the patient in emergency	MED/41	2
Surgical options	MED/22	2
Intraoperative anesthetic aspects	MED/41	2
Surgical postoperative path	MED/22	2
Postoperative intensive management	MED/41	2
Total credits of face-to-face classes		54
Internship		3
Project work		3
Final examination		60
