course content	(See Sign Campus Orm)
Practical-professional	The course aims to train professionals to work in the field of interior design and
profile of the course and	furniture design. The curriculum integrates the knowledge and tools of
industry sector of reference	architecture and design to provide skills for the design of spaces, fittings,
madding sector of reference	furniture products, and retail.
	The program provides basic training on interior design, environmental
	sustainability of projects, interior architecture, fit-out design, and retail and
	commercial spaces. The training is complemented by practical activities,
	workshops, and internships in professional studios and ateliers in the interior
	design industry.
	The training will be divided into six modules, each composed of three subjects
	that will investigate the main application areas of Interior design.
	The course aims to train a professional figure in the field of interior design
	capable of working in the areas of Home Design, Retail Design, Exhibit Design,
	and Urban Design with organizational skills (defining scenarios, art direction,
	and coordination of the professional figures involved) and practical-design skills
	(furniture design and space arrangement).
